We specialise in commercial exterior cleaning and regeneration of surfaces through our unique cleaning system. We're 100% confident we will deliver results that will delight you.

About us

We've been in business for over 10 years, and our objectives have been the same from day one: we value our customers and their needs highly; therefore we put in the same due care and attention to all our work.

The company has been built on an ethos of reliability, flexibility and attention to detail. That's why we make it our duty to listen to what you need: whatever your problem we can find solutions that will work around you or your company's necessities.

Because of our devotion to our customers, they come back to our service time and again – and that's why we're proud to be associated with numerous multi million pound companies.

There's no dressing up what we do – we get things clean and make them look like new again – so that your public image remains squeaky clean and your customers flock back for more.

Our Clients

We work with a wide range of UK's companies across many different industries, providing a service that we believe is second to none.

We specialise in post-build cleaning to brickwork and all external cleaning to new build homes, for the construction industry.

During the build process, newly erected brickwork can and often will become adversely affected by smears caused by lime, mortar, and cement pointing. This often occurs from excess mortar when laying the brick or stone also from bad weather conditions causing smears and splashes from scaffold adjacent to the walls. The most skilled of work could end up looking sub-par, so cleaning up after contractors mortar mess is essential.

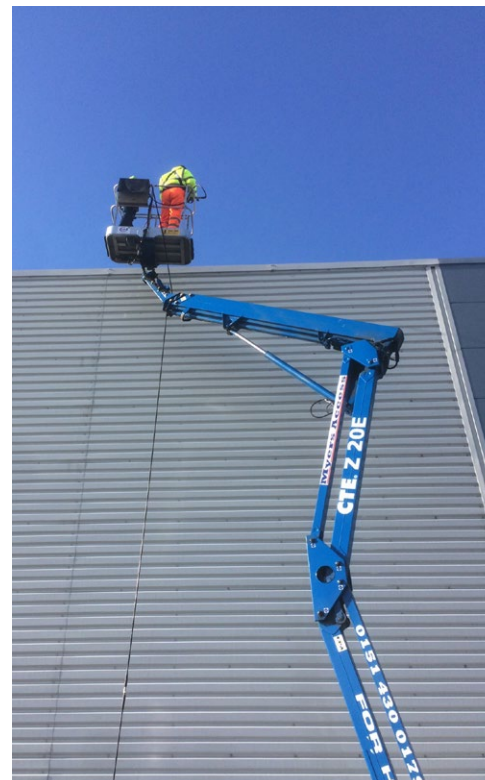

JetClean will remove any residue and brick mortar that is ingrained onto the brickwork or render. Paint, cement, graffiti, organic matter and atmospheric pollutants can be found on bricks, all of which must be removed before the customer or new homeowner take the keys to their new property.

A buildings external look is the first thing an owner will see on handover day, at JetClean we want to create a great first impression for them.

High Level

JetClean are experts in high-level cleaning.

Working at height is a common service we provide and we have the experience and the right equipment to make sure the cleaning is carried out safely, effectively and efficiently.

Our pressure washing cleaning service is often carried out using powered access, for example, cherry pickers, scissor lifts or mobile towered scaffolding.

We also work at height using non-powered access methods, through the use of a high-pressure extendible lance which will allow us to reach up to 40 feet in the air, increasing productivity and lowering costs to you.

Hospitality

We work with well-known hospitality and catering brands to ensure that they're interior and exterior dining areas are up to the exacting standards the public expects.

With full public liability insurance we take on cleaning contracts for large-scale projects in hospitality and retail.

If you're interested in seeing what we can do for your business – get in touch – we'd love to work with you!

- Dustless blasting
- Heritage stonework
- Graffiti removal
- Efflorescence : paint removal
- Fire damage / wood

Large outdoor areas and car parks

Graffiti

Graffiti can be an offensive eyesore and create a negative impression of an area.

Graffiti attracts more graffiti unless it is removed promptly. The quicker it is removed, the better. If left, the solvent will dry into the pores of the surface and become more difficult to remove.

JetClean have developed a speedy and efficient method of graffiti removal which is environmentally friendly and limits disruption.
